

832

118 DAYS
Available As: 3110

- 118 RM Viptera® hybrid
- High yield potential under irrigation in Central and Western Kansas
- Taller plant type with a medium ear placement that has a flex ear type
- Does not adapt as well to poorer performing soils and fields
- Do not plant this hybrid over 32,000 plants per acre; flex ear will compensate greatly!
- Very good root rating with good overall stalks; keep this hybrid south of I-70

ENVIRONMENT

CENTRAL DRYLAND

WESTERN DRYLAND

RATING SCALE: 1-9, 1 = BEST

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation and agreement to comply with the most recent stewardship requirements.

Important: Always read and follow label and bag tag instructions; only those labeled as tolerant to glufosinate may be sprayed with glufosinate ammonium based herbicides. Agrisure Viptera® and Viptera® are trademarks of a Syngenta Group Company.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide

LIBERTY LINK glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control. LibertyLink®, Liberty® and the Water Droplet logo are registered trademarks of BASF.
