WB4347 is a Hard Red Winter Wheat variety with excellent yield potential and test weight. Best suited for the Central Plains West, this excellent drought tolerance variety has good Hessian Fly and Wheat Streak Mosaic Virus tolerance.

- **Excellent Yield Potential and Test Weight**
- **Excellent Drought Tolerance**
- **Good Hessian Fly Tolerance**
- **Good Wheat Streak Mosaic Virus Tolerance**
- **Single Use License Variety**

OPTIMAL SEEDING RATE

Seed size and density impacts how many seeds are in a pound. To enhance your results, you need to know how many seeds to plant per acre and how many seeds are in a pound. An accurate seed count can make all the difference. Learn more at WestBred.com

This is a Single-Use License variety and requires a valid Technology Stewardship Agreement (TSA). For more information about the TSA, visit www.tug.bayer.com. To obtain or confirm TSA status, visit www.agcelerate.com.

Ratings are Internal Bayer Crop Science Wheat Breeding Research Data. Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's yields.
